DAL began trading in 1984 with one of its first projects being the Sultan Qaboos University, Muscat, Oman. Since that auspicious start DAL has manufactured and supplied luminaires for many prestigious projects throughout the Middle East. With a network of long established distributors, we can support large and small projects, whether the products are specified locally or by world renowned lighting consultants, architectural practices or consulting engineers.

DAL prides itself with having a portfolio of work that includes many of the biggest and most significant architectural projects worldwide. In an ever expanding market, several of these projects are still under construction.
