

DESIGNED ARCHITECTURAL LIGHTING

OFFICES

OFFICE LIGHTING

Offices inhabit tall towers and low-rise buildings. Some offices are built specifically for clients who want a major say in all aspects of the interior; some are built speculatively with the occupant coming later. DAL has products for every area in a building, whether it's a Category A or Category B fit-out.

DAL has supplied lights for many, here are some key projects:

20, Fenchurch St, the Walkie Talkie, City of London

Principal Place, Broadgate, City of London

One Creechurch Place, City of London

TIQ, Building 5, Stratford, London
