

DESIGNED ARCHITECTURAL LIGHTING

# SHOPPING MALLS & STORE GROUPS

# SHOPPING MALLS & STORE GROUPS

DAL has supplied standard and custom designed luminaires for many national and international retail buildings since they began trading in 1984. DAL has also worked closely with renowned design practices on products specifically for roll-out shop and store concepts.

Shopping malls and centres encompass a variety of building types, from vast, fully covered out of town structures to small historic arcades and market halls. Some have open pedestrianised streets and squares. The lighting can be complex pendants for atria to fully integrated, high quality downlighters for walkways, front of store margins and food courts. Washrooms and back of house offices and support areas also require efficient, high quality lighting.

Here are some key projects:

## Shopping Malls
